EDUCATION

BSc Viscom - CGPA (Major) 8.82
Sathyabama University

June 2020 - May 2023
Chennai, India

Higher Secondary - 82.4%
NN Matric Higher Secondary School

June 2018 - April 2020
Chennai, India

PROJECTS

Sales Insights Dashboard (In Power BI)

- The Sales Insights Power BI Dashboard is a data visualization project aimed at providing comprehensive and actionable insights into sales performance.

SQL Power BI Excel

Site: <https://github.com/harshad-alt/Sales-Insights-dashboard>

Data Cleaning In SQL

- This Project focuses on cleaning data in SQL and shows how to manipulate the data once it's actually in the database.

SQL

Excel Site: <https://github.com/harshad-alt/Data-Cleaning-SQL>

Correlation in Python

- Correlation Analysis project in Python leverages the power of statistical measures and Python libraries to uncover relationships between variables in a dataset.

Python Numpy

Site: <https://github.com/harshad-alt/Correlation>

Web Scraping in Python

- The Amazon Web Scraping project in Python involves extracting and collecting data from the Amazon website using BeautifulSoup.

Python Site: <https://github.com/harshad-alt/Amazon-web-scraping>

Shipping Logistics Dashboard (In Tableau)

- Logistics Dashboard is comprehensive visual analytics tool to monitor and analyze logistics operations.

Excel Tableau Site: <https://bit.ly/Logistics-dashboard>

ACADEMIC EXPERIENCE

KPMG Australia Data Analytics Consulting Virtual Internship
As virtual intern at KPMG in the Data Analytics program, actively participated in data gathering, cleaning, and analysis processes. Utilized tools like Tableau to present insights to stakeholders.

GoldmanSachs Excel Skills for Business
Engaged in practical exercises and real world scenarios that allowed me to apply Excel functionalities to solve complex business problems.

WORK INTEREST

</> Data Analysis

</> Data Visualization (Power BI / Tableau)
